

STATEMENT OF COMPLIANCE

Date of Revision: 18 February, 2020

INOFLON® Aqueous Dispersion PTFE

CAS No: 9002-84-0

EC 10 2011 and hence article 3 of European regulation no. 1935/2004 (Amendment to EU regulation no. 2002/72/EC)

Plastic materials and articles intended to come into contact with foodstuffs

Certified by TUV India Private Limited.

Tests covered

- a) Overall Migration
- b) Specific Migration of Heavy Metals
- c) Specific Migration of Primary Aromatic Amine
- d) Specific Migration of Phthalates
- e) Specific Migration of Monomer

German Food, Articles of daily use and Feed code of September 1, 2005 (LFGB), Section 30, BFR recommendation

Test covered

Overall Migration

Non-stick coating-Specific migration of Perfluorooctanoic Acid (PFOA)

REACH - Substances of Very High Concern (EC) No. 1907/2006

Certified by TÜV SÜD South Asia Private Limited.

INOFLON® Aqueous Dispersion PTFE complies with the SVHC candidate list updated on January 16, 2020.

Food & Drugs Administration (FDA) directive 21 CFR 177.1550

Articles or components of articles intended to come into contact with foodstuffs

Certified by TUV India Private Limited.

Test covered

- a) Determination of amount of Extractives

RoHS Directive 2011/65/EU

Restriction of Hazardous Substance in Electrical & Electronic Equipment

Certified by TUV India Private Limited.

Tests covered:

- a) Determination of Cadmium content
- b) Determination of Lead content

- c) Determination of Mercury content
- d) Determination of Hexavalent Chromium content
- e) Determination of PBBs (Polybrominated biphenyls) and PBDEs (Polybrominated diphenylethers)

Chinese FDA GB 4806.10.2016*

National Food Safety Standard-Food contact coatings and coatings

Certified by TÜV SÜD Products Testing (Shanghai) Co., Ltd.

Tests covered:

- a) Overall Migration of Potassium Permanganate
- b) Overall Migration of Heavy Metals (as Pb)
- c) Specific Migration of Hexavalent Chromium
- d) Specific Migration of Fluorine
- e) Specific Migration of Monomer

*Applicable to INFLON[®] AD9200 only.

Perfluorooctanoic Acid (PFOA) and Perfluorooctane Sulfonate (PFOS) content analysis

Certified by TUV India Private Limited.

Perfluorooctanoic acid (PFOA), its salts and Perfluorooctanesulfonate (PFOS) are not used in polymerization or at any step of INOFLON[®] Aqueous Dispersion PTFE production.

No Animal Origin

INOFLON[®] Aqueous Dispersion PTFE does not contain, nor manufactured with, any animal products, animal fats, and material of animal origin or grain alcohols.

Disclaimer: The above information is furnished as per tests carried out on representative samples made from GFL base polymers. GFL shall bear no liability as a result of any loss or damage caused due to use of any information provided in this document. If requested, customers are liable to provide the compliance certificates for the components manufactured from INOFLON[®] PTFE resins.

Note Warning: Do not use any of the INOFLON[®] PTFE resins in medical devices that are designed for permanent implantation in the human body. For other medical uses, prior permission of GFL may be sought.
